

Shopping **SAFELY** online

When shopping online you should check:

WHO are you buying from?

WHERE is the seller based?

WHAT do you know about the seller?

Online platforms are not always the sellers of the products advertised for sale on their websites.

Buying products from sellers based overseas or who fail to provide a UK address increases your risks.

If you are concerned about the safety of any product, please report it to your Local Trading Standards service, which you can do through Citizens Advice Consumer Helpline (Consumerline in Northern Ireland or consumeradvice.scot in Scotland)
